

CREATING AND ENHANCING *TRUSTWORTHY*, RESPONSIBLE AND EQUITABLE PARTNERSHIPS IN INTERNATIONAL RESEARCH

CALL FOR COMPETITION NOW OPEN - RELAUNCH

Reducing the risk of exporting unethical practices to low and middle income countries

We invite the submission of case studies identifying the risks of exporting non-ethical research practices to low and middle income countries. The competition opened on December 14th, 2015, and after a first deadline on 2 March 2016, the call is relaunched. The new deadline for submission of abstracts is April 25th, 2016 with full submission of selected proposals on June 13th 2016. Ten winners will be selected and ranked from 1 to 10; cases ranked from 1 to 5 will receive €2,000 and cases ranked from 6 and 10 will receive €1.000. The competition is part of the TRUST project, co-funded by the European Commission under grant number 664771.

Information about Trust

The TRUST project addresses the risks of *ethics dumping* - that is the export of research practices that would be considered unethical in Europe - for both public and privately funded research. With the globalisation of research activities, there is an increasing risk of research involving sensitive ethical issues being conducted by European organisations outside the European Union, without proper compliance structures and follow-up.

To contribute to our research, we are launching this bottom-up call. Ten full case studies will be funded from successful applicants to this competition. These cases must refer to research undertaken in low or middle income countries by researchers, sponsors or funders from high income countries; in any field of research (e.g. life sciences, social sciences, agriculture, environment, animals, security, etc.).

For further information about the project, please see <http://trust-project.eu/>

Eligibility criteria

- The case study must be based on real experiences and events.
- Applicants can be from any organisation or background in any country (e.g. ethics bodies, funding organisations, governmental actors, Civil Society Organisations (CSOs) representing the interests of the local populations, industry, academia, policy making, etc.)
- Applicants must *not* be connected directly to the TRUST project. Any person that is an employee of any organisation involved in the project or a family member of such an employee is not eligible to enter the Competition. TRUST reserves the right to disqualify any person that it knows

is, or has reasonable grounds to believe is, ineligible for the Competition as a result of this Rule.

- The case study can be presented from an insider or outsider perspective.

Judging criteria

- Relevance of the case study to the field of global research ethics
- Clear focus on “ethics dumping” in low and middle income countries
- Originality of the issues raised
- Engaging writing style

How to apply

The competition is separated into two phases.

PHASE 1 APPLICATION – DEADLINE 25 APRIL 2016

Applications in Phase 1 should include

1. an abstract of the case study (max. 500 words),
2. an explanation of why the case study is important (max. 300 words),

Please email your application to
